Global opportunities in decarbonisation

Isaac Court

Green Economy Manager – Energy, Resources & Infrastructure Austrade

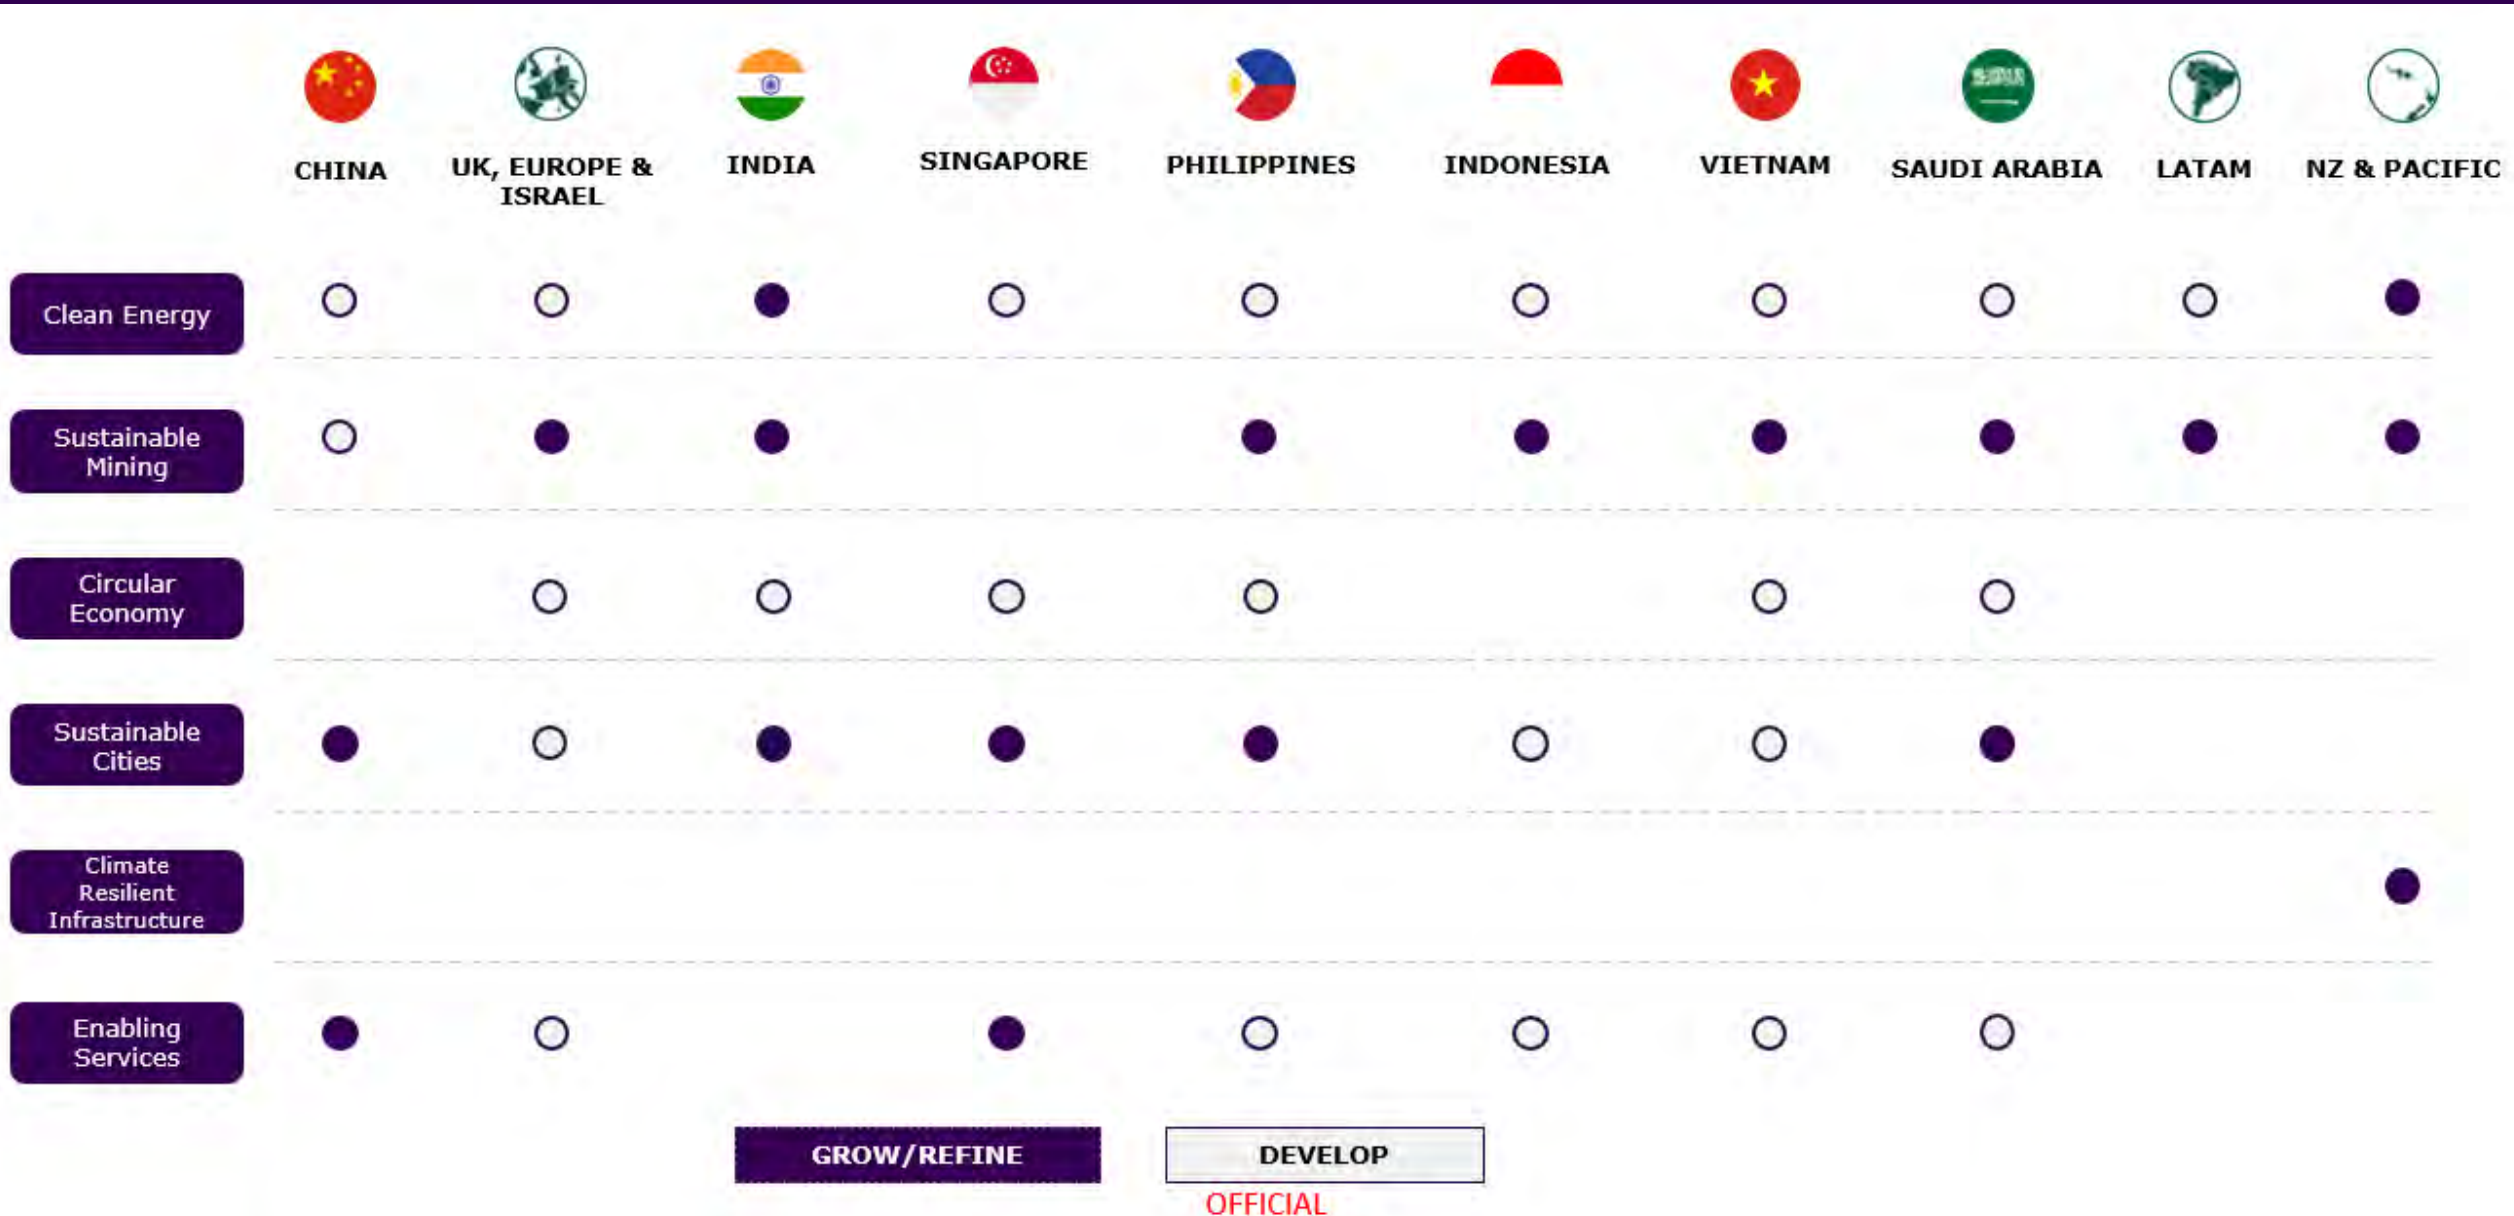

Austrade's global network

- Austrade office or presence outside Australia
- Austrade presence outside Australia where consular services are also provided
- Austrade Landing Pad
- Australian Trade and Defence Office
- Austrade office in Australia

Subsector priorities in key markets

Opportunities: South Asia & Southeast Asia

India

- Rapid change and government investment
- Solar industry development
- Energy storage (giga factories)

Vietnam

- Energy storage systems (smart grid, microgrid)
- Hydrogen technology
- Offshore wind supply chain development

Malaysia

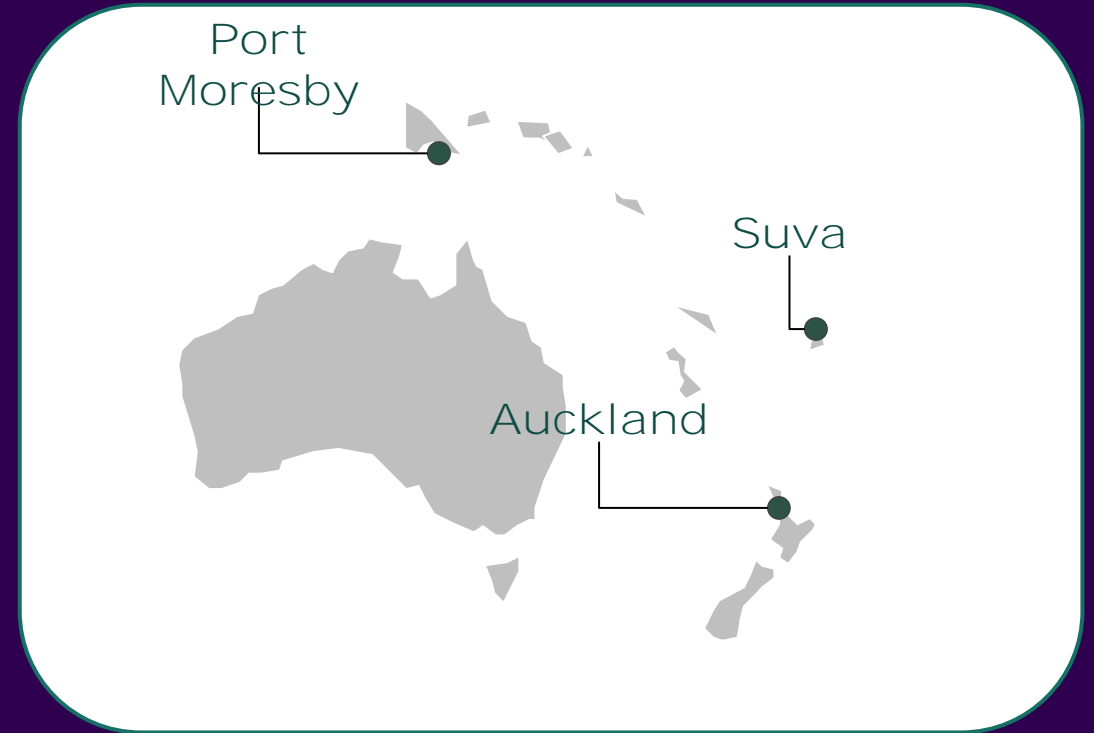

- Hydrogen airport, hydrogen refuelling & sustainable aviation fuel
- Green hydrogen / ammonia / methanol & maritime
- EV green mobility

Singapore

- Energy efficiency technologies
- Solar optimisation
- Green maritime (biofuels, electrification, early positioning for ammonia / methanol)

Pacific: Opportunities landscape

- Opportunities / funding programs
- Energy challenges in the region
- **Microgrids, solar, water...**
- Proven, cost, low maintenance, durable
- Australian contractors and consultants opportunity
- Unique needs of different countries
- Networking and building long term relationships is key
